

Attend the Irma Legion Sports Monday, June 7th

Glen-Coa Gleanings

We are happy to report that Mr. H. Knudson is well enough to be home from hospital.

Mr. L. Gerard, teacher of Coal Springs school, spent the long week end in Edmonton.

The following women attended the Women's Missionary Federation convention at Bardo (near Telford): Mrs. N. Fluevog; Mrs. G. Pedel; Mrs. L. Satre; Mrs. H. Fuder; and Mrs. O. Likness.

Misses Arlene Steffensen, Lily Nelson and Eunice Satre are attending the graduation exercises at Camrose College this week-end.

Luther Leaguers are asked to remember the special Luther League program next Sunday evening.

BUFFALO COULEE W.I. HOLDS BAZAAR

On Friday, May 7 the Buffalo Coulee W.I. held its first bazaar in Albert school. For an organization of just one year's standing, the bazaar showed plenty of co-operation and ambition, on the part of the ladies and the whole community.

There were aprons, fancy work, knitted goods, leathercraft, children's dresses and a few novelties for sale. The ladies also sold ice cream and home-made candy and there was a surprise table containing articles of 10c or 15c value.

In conjunction with the bazaar there was a card party and dance. So all in all a very busy and enjoyable evening was accounted for.

The W.I. ladies would like to thank everyone who helped to make their bazaar a success and especially to any person who donated articles for sale.

SILVER SERVICE PRESENTED

Jaqueline Tate, a bride-elect, who, following her marriage in Irma on June 5, will leave to make her home at Sherbrooke, Que., was guest of honor when the staff of the research council of the business staff of the university of Alberta entertained recently. Miss Tate was presented with a silver tea service.

Kathleen Wark also entertained for the bride-elect recently when Mary Clark, June Larson, Sheila Mackintosh and Mary McCullough were present.

SCHOLARSHIPS FOR BARLEY RESEARCH

Five scholarships good in any Canadian university which undertakes barley research, are being offered by the newly formed Barley Improvement Institute which started its work May 1st from its head offices in Winnipeg.

Realizing that one of the greatest present needs of the barley industry is for one or more varieties with good malting qualities and better agronomic properties, the Institute is turning to research to try for these objectives. As results of research must largely depend on qualifications of the men engaged in it, part of the Institute program is to assist in their training.

The scholarships are being provided to encourage university graduates to take advanced study courses in barley research. It is hoped that this may help to hurry the work of producing new and better varieties.

Details of the scholarships will be announced in the near future. The Barley Improvement Institute is headed by Prof. T. J. Harrison who recently resigned as assistant for Manitoba to the Board of Grain Commissioners of Canada, to take charge of it. Prof. Harrison is a widely known barley authority.

The work of the Institute is being financed by the brewing and malting industries of Canada.

CARD OF THANKS

I wish to thank the many friends for the lovely cards, flowers, candy and fruit sent to me while in the hospital. Your thoughtfulness was very much appreciated. I also wish to thank the doctors and nurses for the wonderful care and attention given me. Thank you. Mrs. A. Owen.

Items From Kinsella District

Miss E. Grant gave a most interesting talk on narcotics to the Kinsella school children last Thursday.

The pupils of the Kinsella school took part in the Track Meet held at Viking Friday. According to the ribbons brought home, they must have acquitted themselves well. The pupils of the high school attended the annual high school dance at night.

Mr. and Mrs. W. Long and family are spending a holiday at the home of Mr. and Mrs. F. Long.

Mr. and Mrs. E. Simmons, Jack, Mrs. S. Simmons, Mrs. F. Jack attended Miss Olive Jack's graduation at the school of nursing at Lamont hospital.

Weekend visitors included the Misses Cora Murray, Edith Long, S. Gilbertson, Bella Anderson.

Mr. and Mrs. G. Patterson and Marilyn spent the holiday in Calgary.

Mr. Robt. Barker was home to attend the wedding of his sister, Miss Jean Barker.

We are pleased to report that been a patient at the Viking hospital. Mr. Stuart Arkinstall, who has played has returned home.

The Kinsella W.I. will hold their monthly meeting at the United Church on Saturday, May 29th at 3 p.m.

At the Churches

UNITED CHURCH
Sunday, May 30
Subject: The decision to change Masters.

Test. Matt. 19:22. "Then answered Peter and said unto Him we have left all and followed Thee. What shall we have therefore?"
Roseberry—3 p.m.
Irma—Sunday school 11:00 a.m.
Worship 8:00 p.m.

IRMA GOSPEL MISSION

11:00 a.m.—Sunday school and Bible class.

8:00 p.m.—Hedley's hall, missionary Sunday address given by Miss Flora Dixon, a missionary from Africa.

8:00 p.m. June 3—Y.P. meeting at Avon Glen school, featuring one sound film.

We welcome you to all of our services. Come and bring a friend.

Pastor: Geo. E. Warnock.
"For there is one God, and one mediator between God and man, the Man Christ Jesus." I Tim. 2:5.

ST. MARY'S CHURCH

Service will be held in St. Mary's church on Sunday, May 30, at 2:30.

Community Cook Book

Boil ½ cup minute tapioca, 1 cup sugar and 1 pint of water in a double boiler until clear, stirring often. Add the juice of two lemons about five minutes before removing from stove. Remove and let cool slightly then stir briskly the well-beaten whites of two eggs. Let stand until quite cool before serving. This will serve six.

Mrs. M. Enger.

A.F.U. NOTES

The Irma local is planning a machinery field on Monday, June 14. Bring your lunch baskets, tea and coffee will be provided. This will be held on the southwest corner of the Sanders farm. Ball games, races, horse shoes, for young and old. Everybody welcome.

Open Letter

OPEN LETTER TO WAINWRIGHT SCHOOL DIV.

Municipal District of Wainwright No. 61

Saturday, May 22, 1948.

Board of Trustees, Wainwright School Division No. 32, Wainwright, Alberta.

Re 1948 School Levy

Your attention is drawn to motion No. 15 of your minutes dated 23rd April, 1948, which reads as follows:

"That this board protest the action of the Municipal District No. 61 in raising the mill rate of the school division requisition from 19 mills to 21.5 mills, seeing that any over collections do not have to be accounted for to the credit of the Wainwright School Division No. 32."

The council of the municipal district of Wainwright No. 61 finds it necessary to instruct its secretary-treasurer to write this open letter to the board of trustees through the medium of the local newspapers having circulation within their district.

The figures that are necessary to quote were submitted to you in October, 1947, at the request of the municipal district. In 1942, the first year of the enlarged municipal district, your requisition amounted to \$62,906.00, a mill rate of 15 mills on the dollar, against an assessed value of \$4,816,909.00 which gave a current tax of \$72,267.00, discounts paid \$6,558.00, interest on loans paid \$851.00, previous loans paid \$13,867.00, paid to the school division No. 32 in excess of collections, including previous years, \$12,062.00. Loans unpaid end of fiscal year, \$3,316.00.

The provincial government set up the enlarged district of Wainwright along with four others in 1942. They were termed "trial units." Briefs were invited as to an "amalgamated tax levy" and permission was granted in 1943 to set up redgers relative to the proposed tax levy which proved to be a success, as the Municipal District Act was amended in 1944 to direct that the said amalgamated tax levy be imposed throughout the province. The principal was that regardless of what amounts any school division or school district within the district requisitioned the municipal council for a mill rate must be struck against the assessed value of said division or district, having regard for the amounts expected to remain unpaid and discounts to be allowed. Any discrepancy must be provided for out of the municipal revenue.

To offset this, the provincial government, by order-in-council No. 1697-43, vested all arrears of taxes collectable and uncollectable to the municipal district, which amounted to \$128,570.00, with which amount you are asked to acquaint yourself.

On examining the annual report of the municipal district for years 1942 to 1946 inclusive, a copy of same having been sent you each year, we find the following with reference to the Wainwright school division No. 32.

Current taxes levied \$392,042.00
Penalties added 17,328.00
A \$409,370.00

Requisitions paid \$361,405.00
Discounts allowed 26,554.00
Cancellations 16,301.00
Interest paid 1,305.00
Previous loans paid 17,183.00
Paid in excess of collections prior to 1942 12,052.00

B \$484,870.00

Year 1947
Current Taxes levied \$96,492.00
Penalties added 1,179.00

C \$97,671.00

Requisitions paid \$92,227.00
Discounts allowed 4,395.00
Cancellations 379.00
Interest paid 471.00

D \$97,472.00

Liabilities—B plus D \$532,342.00
Assets—A plus C \$507,041.00

E \$25,301.00

From 1942 to 1947 inclusive, the arrears of taxes, \$128,570.00 have been drawn on to the extent of E.

Northern Nuggets

The Buffalo Coulee W. I. is planning a big picnic for Friday, July 9. Watch for posters and remember to keep that date open so that you can attend.

Miss Frances Barss, Miss Edith McRoberts and Mr. S. Taylor moved from Edmonton to spend the holiday at the Barss and McRoberts homes respectively.

Measrs. L. H. Barss, J. A. Fleming and H. Johnston went to Lloydminster to attend the bull sale this week.

Mr. and Mrs. D. McKenzie and small son were Sunday visitors at the home of Mr. and Mrs. W. D. Ramsay.

Mr. H. H. Currie celebrated his 88th birthday on the 19th of May. The district extends its best wishes and the hope that Mr. Currie has many more happy birthdays.

The May meeting of the W.I. was held at the Clissell home on May 19. Mrs. J. C. McLean was a special guest and brought a message of work and doings of interest to W.I. women.

Mrs. Archie Fleming is the W.I. delegate to the conference to be held in Bruce June 15.

Anyone planning on going to Bruce for the conference by bus will note that the bus arrives in Bruce at 10:05 a.m. It is hoped that registration will be over by 10:30 and the conference started immediately after.

Southern Sayings

Mr. and Mrs. J. Bell were in Edmonton for a visit.

We are glad to report that Arthur Jackson is now feeling much better and he will be coming home this week.

Congratulations go to Mr. and Mrs. F. Bronson on the arrival of a son on May 18.

Mrs. Rose is now living with her son, George, south of Irma.

Mr. and Mrs. J. Bell were in Edmonton for a visit.

We are glad to report that Arthur Jackson is now feeling much better and he will be coming home this week.

Congratulations go to Mr. and Mrs. F. Bronson on the arrival of a son on May 18.

Mrs. Rose is now living with her son, George, south of Irma.

Mr. and Mrs. J. Bell were in Edmonton for a visit.

We are glad to report that Arthur Jackson is now feeling much better and he will be coming home this week.

Congratulations go to Mr. and Mrs. F. Bronson on the arrival of a son on May 18.

Mrs. Rose is now living with her son, George, south of Irma.

Easterly Echoes

Mr. and Mrs. Lawrence Johnson and baby son have moved to Irma where they have taken up residence in the home of H. Farthing.

Another couple that are leaving our midst are Mr. and Mrs. Allen McFarland. They are moving to Viking where Mr. McFarland will be employed with the gas company.

The infant son of Mr. and Mrs. S. Fenton has been a patient in the Wainwright hospital.

Others that have been confined to hospital this week are Mrs. L. Johnson, Mrs. A. McFarland and Mrs. W. Crabb.

Mr. and Mrs. B. Oldham of Wainwright were visitors in the district.

Mr. and Mrs. T. Sanders accompanied by Mrs. E. Sanders were Edmonton visitors this week.

The next meeting of the Battle River W.I. will be at the home of Mrs. H. Pascha on June 8. Program by Mrs. Pascha and Mrs. W. Patterson, draw Mrs. G. Fenton, and hostesses Mrs. E. Sanders and Mrs. H. Barton. The roll call will be answered by: "What's your beef?"

W.C.T.U. SPEAKER AT IRMA

An interested group of women met on Wednesday afternoon, May 19, in the United church to hear an address by Miss Edna Grant, W.C.T.U. official. Mrs. G. Hendrickson, of Tofield, who accompanied Miss Grant, opened the meeting with a few appropriate words and a prayer.

Miss Grant began her interesting talk by telling that she was on her ninth trip across Canada. She had visited Irma previously in 1943.

Miss Grant began her address by describing some of the high-lights of the last W.C.T.U. World Convention. She told of interesting talks by delegates from India and Korea. Everyone was concerned about happy homes. She also told us of the fine W.C.T.U. display booth at the famous Toronto exhibition and mentioned the various contacts that were made there.

That victims of alcohol are sick. The aim of the W.C.T.U. is to keep the boys and girls from getting sick. She mentioned the new course in B.C. with the object of showing "What Alcohol Is and Does." Four talks are to be shown in B.C. schools, three being made by the W.C.T.U. All government today, Miss Grant went on, are doing a lot for narcotic education. Lecturers are being called out from Yale University of Alcohol Studies to talk to employees in factories, etc. Saskatchewan has the first school for narcotic education with three special lecturers. After all, home and young people are the targets of the brewers. Two out of three in the United States drink alcohol. The need is to find God and the only cure is in His strength. No W.C.T.U. member, said Miss Grant, need feel ashamed because the W.C.T.U. is scientific. The Christian standard, to be true to Christ, is necessary, however. W.C.T.U. women go to jails, missions, schools, orphanages, etc., to do evangelistic work. Alcohol is mixed up with 90 per cent. of delinquents and 50 per cent. of crime.

Mrs. Hendrickson, closed the meeting with a few words of appreciation for the fine co-operation they had met in schools, also for the contacts they had been able to make in the various towns.

Prayer for Miss Grant and her work was requested. Inspiring hymns were sung at the beginning and close of the meeting.

Reported by Mrs. O. Likness.

ENGAGEMENT

Mrs. R. J. Tate of Irma wishes to announce the engagement of her daughter, Roberta Jacqueline, to Lorne T. Raham of Elk Point. The marriage will take place at the bride's home on June 5.

B OF M ANNOUNCES EXECUTIVE CHANGES

The Bank of Montreal has announced the appointment of Ernest E. Rutherford, manager of the bank's main Montreal office, as an assistant general manager in charge of western branches. He succeeds Frederick Gordon Belcher, who is retiring at the end of June.

M. D. Wainwright Council Minutes

The council of the municipal district of Wainwright No. 61, met in the council chamber of the district on Thursday, May 13, 1948, at 9:00 a.m. Councillors Dallyn, Spencer, Sutherland, Taylor, Smale, Arthur and Archibald present. Reeve Sutherland in the chair.

Spencer—That the minutes of April 2, 1948, be approved as written. Cd.

Smale—That accounts as recommended by the finance committee and subsequent accounts passed by council amounting to \$31,559.63 be paid. Cd.

Sutherland—That Clr. Taylor be a committee to investigate the matter of Arnold Stevens and university of Alberta hospital account and report at June meeting. Cd.

Smale—That Clr. Dallyn be a committee to investigate the matter of James McNally and Royal Alexandra hospital account and report at June meeting. Cd.

Archibald—That the secretary contact Russell and Elmer Glover of Newcastle in the Drumheller district, with reference to the Wainwright municipal hospital account, Mrs. May Glover (deceased) for \$81.72. Cd.

Sutherland—That the statement of receipts and expenditures for the month ending April 30, 1948, be accepted as read and incorporated in the minutes. Cd.

Arthur—That J. A. Girard be appointed assessor under Section 168 of the Municipal Districts Act. Motion lost.

Archibald—That Chas. Willbraham, secretary-treasurer, be appointed assessor under Section 168 of the Municipal Districts Act, and the minister be advised of the appointment. Cd.

Archibald—That the reeve and secretary attend the next meeting of the Wainwright School Division No. 32 and Wainwright Hospital District No. 61. Cd.

Archibald—That the secretary draft a resolution and submit same to the reeve for approval with reference to the mill rates, collections, discounts, etc., of the Wainwright school division No. 32, to be incorporated in the proceedings of this date, and that an open letter be sent to the school division and the newspapers of this area, with reference to the Wainwright school division minute No. 15 of 23rd April, 1948. "That this board protest the action of the municipal district No. 61 in raising the mill rate of the school division requisition from 19 mills to 21.5 mills, seeing that any over collections do not have to be accounted for to the credit of the Wainwright School Division No. 32." Cd.

Whereas the board of trustees of the Wainwright School Division No. 32 have protested the action of the Municipal District of Wainwright No. 61 in striking a mill rate of 21½ mills on the dollar on all rateable property in the said Wainwright school division No. 32 for the year 1948, and have stated that the mill rate has increased from 19 mills as recorded in the proceedings of a board meeting of 23rd April, 1948. Motion No. 15, and said minutes have been published in the local newspapers having a circulation within the area of said school division.

And Whereas Motion No. 177 of the 13th May, 1948, meeting of the council directs that an open letter be forwarded to the Wainwright School Division No. 32 and the newspapers of the municipal district through the medium of the local newspapers, stating the re-

(continued on inside page)

Funds For Education

WHETHER EDUCATION SHOULD BE under the control of the individual provinces or whether it should be entirely or in part the concern of the Federal Government, is a question which is frequently discussed by those who are interested in the future of education in Canada. Because of the extent of the country, and of the influence of the climate and the geography of the land on the interests and occupations of the people, it is clear that there would be many reasons why each province might be capable of dealing most wisely with its own educational problems. On the other hand, a uniform curriculum, and the free movement of teachers throughout the country would undoubtedly promote national unity, and would also remove the difficulties which now arise when pupils move from one province to another, which has different educational standards. Another matter in which Federal control might prove beneficial is that of school finances, which frequently present serious problems to local educational boards.

Problems Are Pointed Out

The subject of school finances was raised in a recent "news letter" issued from the headquarters of the Canadian Teachers Federation. In the letter it was suggested that the Federal Government should bear a share of educational costs. "Education cannot continue to depend entirely on the wealth of a province, the wealth of a local community or on the generosity of the individual property owner," it said. "To base the solution of educational finance on the local property owner or on the wealth of a province is folly," the letter continued, and it further pointed out that the base upon which educational finance has rested in the past, that is, the real property tax, is becoming increasingly less accountable for the major portion of the taxes collected. The subject is to be further discussed at a conference to be held by the Canadian Teachers Federation in Ottawa this summer.

Present System Is Inadequate

As is the case in almost any enterprise, finances are of the utmost importance in education. Recent economic trends have brought necessary increases in salary scales for teachers, although in many parts of the country, due to the scarcity of funds, these increases are recognized to be far from adequate. In addition, the war brought about a curtailment of the building of new schools, and in the repairing of buildings already in use. Shortages of labor and materials following the war, coupled with rising building costs, have caused an enormous backlog of construction and repairs which will some day have to be caught up, and which will involve large expenditures. It has long been apparent that in most localities, the present methods of financing the schools are far from satisfactory, and are not in the best interests of education. In its letter, the Canadian Teachers Federation expressed the hope that at the coming conference provincial organizations would be prepared to give support to a "revival of its active campaign for federal grants in aid of education". It is a matter which deserves the attention not only of the teachers' organizations, but of all who are interested in the welfare of education in Canada.

"GOOD OLD DAYS"

Comparison Of Hog Profit

WATROUS, Sask.—Digging among a pile of old papers the other day Ed Tingey came across several interesting souvenirs of "good old days" in his farming experience. "One was a settlement slip for a load of hogs, shipped to the Canadian Livestock Co-Operative Limited, Nov. 2, 1932. Described as three selects, seven bacon and four butchers, the 14 animals weighed 8,000 lbs. The price happened to be \$3.10, which figured out to \$22.15. When \$27.95 freight and other deductions were taken off, Mr. Tingey got a cheque for \$61.70. On making inquiries, he found the price today would be almost five times the price received in 1932. Of course the feed question entered into the picture, but one important item, oats, did not show nearly as much spread between 1932 and 1948.

BEST FLOOD STORY

SASKATOON.—Best story to emerge from Saskatchewan's otherwise grim flood picture was the following, verified by the C.N.R. A woman wanted to go from Battleford to her home at Delmas, 10 miles away. She bought a return ticket for 55 cents. After two days she was still traveling on C.N.R. lines on the same ticket, after having been rerouted to Saskatoon, Kindersley, Hanna, Edmonton and Lloydminster. She was also stranded a day west of Lloydminster. She returned, back home at Delmas, after travelling 900 miles for 55 cents.

BOLIVIAN POPULATION

More than 50 per cent of the population of Bolivia, South America, are Indians who speak their own dialects only. Twenty-five per cent are of mixed blood.

FOR MODERN PEST CONTROL

He Wouldn't Be Defeated

WILLIAM WATSON AUTOGRAPHS HIS BOOK

Although he was born without arms William R. (Bill) Watson is living proof that nothing can defeat a man who won't be defeated. Handicapped beyond most Watson is a successful Canadian author and writes all of his books with his feet. This picture shows him in Windsor, Ont., autographing his latest book holding his pen, for a change in his teeth. Still he believed to be the only author of his kind in contemporary bookdom. He has written three books, each 150,000 words in length: a job that takes him from two to two and a half years for each. His latest book "And All Your Beauty" is based on a trailer trip across Canada taken by him and Mrs. Watson. From youth Watson did not permit his disability to discourage him. In his early years on the Canadian prairies he learned to skate, ski and swim with the best of them but when he learned to write in school he was different in that he sat on the floor and wrote with his toes instead of sitting at a desk and using fingers. Bill was an honor student at the University of Alberta graduating with a degree in arts and law.

U.S. Has 2,000 Branch Plants In Canada

WASHINGTON.—C. Bruce Hill of St. Catharines, Ont., president of the Canadian Chamber of Commerce, told an audience here that "Canada wants and expects nothing from the United States other than the consideration normally given a best customer, a good risk and a good friend." Hill spoke at the United States Chamber of Commerce annual meeting. "The United States had done a good job in helping develop Canadian business sources and production, with some 2,000 branch plants located there and an investment of \$5,000,000,000. Then he drew attention to the fact that Canada in 1947 had spent \$2,000,000,000 in purchases of United States commodities—against about half that amount spent by the United States in Canada. This had brought about a critical shortage in Canada of United States dollars. Nevertheless, Canada asked only the consideration normally given a best customer and friend.

Summer To See Labor Shortage

OTTAWA.—With agriculture and other seasonal industries absorbing thousands of workers, the federal labor department predicts this summer will see labor shortages "at least as great as those which occurred in 1947." The prairie provinces show the same general trend as in the rest of the dominion, as traced in the department's monthly manpower analysis, issued.

The Christian name, Raymond, means "wise protection".

DOES INDIGESTION WALLOP YOU BELOW THE BELT?

Help Your Digestion "24" For The Kind Of Relief That Only "24" Can Give. More than half of your digestion is done below the belt—in your 25 feet of bowels. So when indigestion strikes, try something that helps digestion in the stomach AND below the belt. What you may need help to that "forgetful 25 feet" of bowels. Take one Carter's Little Liver Pill before and after meals. Take them according to directions. They help make up a larger flow of bile and help you digest what you eat. AND 24 bowls—help you digest what you eat. "24" must take the kind of relief that makes you feel better before you head to your town. Just be sure you get the genuine Carter's Little Liver Pills from your druggist—24.

THE TILERS

WE'LL HAVE TO GET OUR DINNERS TODAY—MRS. TILDER AND LORNA ARE GOING TO THE BEAUTY PARLOR? BY GOLLY THAT GIVES ME AN IDEA HOW I CAN GET HER IN A GOOD MOOD. AND MAYBE SHE'LL BAKE US A CHOCOLATE CAKE WHEN SHE GETS BACK. I'LL MAKE A SPEECH TO HER THUSLY... MAM WITH YOU IT'S A WASTE OF MONEY TO GO TO A BEAUTY PARLOR. WITH ALL YOUR NATURAL BEAUTY THERE'S NOTHING THEY CAN DO ARTIFICIALLY TO IMPROVE UPON YOU... I NEVER GOT TO THE NATURAL BEAUTY PARTY? SLAM

FUNNY And OTHERWISE

She was trying hard to impress her companion of the evening. "I'm looking forward," she said, "to my twenty-fourth birthday." "Aren't you," suggested the girl friend, "facing the wrong direction?" Boy: "Mother, this book says that in the ocean the big fish eat up the little sardines. Is that true?" Mother: "Yes, I believe it is." Boy: "How do they open the tins?" Plausible Tramp (in suburbs): "Lady, I ain't beginnin' but can I hang around till yer dawg's done with that there bone?"

A dancing instructor has worked out a new dance in which you take one step forward, and two backward, and he is looking for a name for it. Well, why not call it civilization?

"Ah," said the Customs officer, producing a bottle of whisky, "I thought you said there were only old clothes in that trunk."

"Aye, that's a night cap," said the Aberdonian.

"Doctor, if you operate, can I be back playing the violin in two week's time?"

"I can't guarantee the violin but the last patient on whom I performed this operation was playing a harp inside of twenty-four hours."

Judge: "The police said that you and your wife had some words." Prisoner: "Well, I had some, but I didn't get a chance to use them."

The stern parent was interviewing the family lawyer. "William, my eldest son, is determined to marry that actress with whom his name has been connected. I shall cut him off absolutely, and I want you to tell him so."

"Well," said the lawyer, after a moment's hesitation, "I have a better plan than that. I'll tell the girl."

Neighbor: "How many controls has your radio?" Mr. Jones: "Two. My wife and my daughter."

Mrs. Green: "My husband is the most gentlest easy-going good-tempered man you could imagine."

Mrs. Black: "Yes, my husband is lazy, too."

Ten Million Tons Of Coal Yearly From Alberta Is British Expert's Vision

OTTAWA.—Demands for a national coal policy for Canada were renewed here today. They were highlighted by a British industrialist's offer to bring 3,000 engineers from Britain and begin strip-mining Alberta anthracite. The offer came from Sir Albert Braithwaite, a British coal operator until his mine was nationalized, now engaged in strip-mining in India. It was dependent on satisfactory financial arrangements being completed. Sir Albert explained he had already been refused permission by the Bank of England to export capital for the purpose. The dinner was organized by a group of Liberal, Progressive Conservative, Social Credit and C.C.F. members of parliament, and by Mervyn Brown, owner of extensive coal development rights in Alberta. At the head table were Agriculture Minister Gardiner and Premier Manning of Alberta. Attending were about 300 people, including representatives of both railways, other industrialists and mayors of several cities.

Sir Albert told the gathering he sent a group of engineers to Canada two or three years ago to explore the possibilities of developing coal resources. They reported that in six months production could reach 3,000,000 tons and by the end of 18 months 10,000,000 tons a year. Mining engineers estimated Alberta anthracite could be laid down in Ontario for \$12.50 to \$13.25 a ton compared to the \$20 American coal was costing here, Mr. Brown said.

NO IMMEDIATE HOPE FOR LOWER MEAT PRICES

OTTAWA.—Little immediate hope of lower meat prices was held out to Canadian consumers in testimony before the Commons price committee. However, they also got assurance it is pretty certain there will be no meat shortage this year.

New Chemical For Tomato Blight This Year

Tomato growers in Ontario have a new control for early blight of tomatoes this year. The chemical is zinc dimethyl dithiocarbamate, a close relative of ferric dimethyl dithiocarbamate the outstanding control for tobacco blue mold, cabbage downy mildew and many other plant diseases.

Present recommendations call for alternate applications with tribasic copper sulphate, a fixed copper. At least four applications should be made at 7 to 10 day intervals with the first being zinc dimethyl dithiocarbamate applied about 30 days after blossoming. Both chemicals can be applied as a spray or dust, depending on the type of equipment available. Experiments show good control can be had with either formulation.

FEWER HORSES

Horses on farms as at December 1, 1947, numbered 1,979,400 being 12 per cent below the number for the corresponding date in 1946. Decreases occurred in all provinces. Saskatchewan had the most horses with 486,600, when the count was made last year by the Dominion Bureau of Statistics. Ontario was next with 451,000, Alberta, third with 393,800 and Quebec fourth with 315,700. Since December 1, 1941, up to the corresponding date in 1947 there has been a decline of 907,000 horses on farms in Canada.

For Quality— Mildness— Value.

HOME-BUILT POWER SAW

These diagrams show the construction of a power saw in which the depth of cut is adjusted by the mechanism from a truck jack.

(By L. W. VAN ORNE)

THIS machine combines the features necessary for cut-off and mitre cuts as well as the conventional stationary blade rip-saw. The carriage on this machine swings from the base. All the mechanism is attached to the carriage.

The two threaded nipples at the base of the carriage are loosely screwed into the pipe tee and then are bolted to the frame. The threads provide a snug and durable bearing which has no end-play and yet is easy and simple to assemble.

At the forward position of the carriage the blade is safely below the table. As it is drawn back by the control handle, which is made of an old bumper lug, the blade begins to come up through the slot in the table. When the carriage is vertical an 8-inch blade will show about 2 1/2 inches above the table.

For cross-cutting a piece of 2 by 4 on edge is nailed cross-wise of the table and the work placed against this for cutting. For mitre cuts the back piece is fastened to the table at the proper angle. For ripping and

Contract To Replace Nascope Has Been Let

OTTAWA—If there's a ghost to the ill-fated Nascope, the supply ship which foundered in Canada's Arctic waters, it'll have difficulty spanning the huge \$2,000,000 replacement the government is constructing.

Contract for the 3,000-ton vessel already has been let to a shipbuilding firm at Lévis, Que., where workers are tackling the streamlined plan transport department officials have blueprinted.

Meanwhile, as construction goes on, the government has scraped together a motley fleet of six boats to haul the thousand and one things needed by Eskimos and R.C.M.P. and other officers on northern frontier duty.

Altogether the tonnage of the fleet will not amount to more than 1,500—only half that of the new transport department "Dreamboat" expected to ply the northern waters in the spring of 1950.

Primarily, the Nascope, which cracked up on a reef at Cape Dorset, Baffin Island, was a Hudson Bay Company ship. She was of 1,000 tons costing about \$750,000, operated by a crew of 50. When she foundered, 34 passengers were rescued. None went down with her.

The resources department had leased her, however, when she made that ill-fated run. To offset the loss the Hudson Bay Company has ordered a smaller boat, now being produced by a British firm, and available in 1949.

But the government's growing interest in the north became grounds for the production of a government-owned vessel of greater capacity and durability. The new vessel, as yet unnamed, will require a crew of 50. Of all-steel construction she will be 300 feet long and 50 feet wide. She will be specially reinforced against icebergs and all-steel steam engines will drive her. On board will be hospital accommodation and a clear stern where a helicopter may be carried for emergency purposes.

BREED RATION MAY END IN BRITAIN

LONDON—Harry Marriott, chairman of the Co-operative Bakery Association, said that bread rationing in Great Britain may be abolished this summer. Responsible officials would make no promise. The adult ration now buys 38 ounces of bread a week.

rabbling the blade is set at the proper height by adjusting the threaded handle. A piece of straight board may be tacked on for a fence. For those without hydro, one of the light weight gas engines could be used for power by strengthening the motor supports. For construction work a saw of this type is invaluable as the builder seldom needs to use a hand-saw, and for cutting studding and rafters it reduces time at least in half and makes more accurate cuts. In addition, scrap lumber, etc., can be cut up quickly for fire wood.

The diagrams will explain the construction of the outfit, except for a few things. The frame must be kept square and rigid by careful bracing. One single brace on each side, end and bottom should be enough. All bolts can be 3/4 in. carriage.

The table can be made of 1/2 inch or 3/4 inch veneer or plain lumber, leaving a slot for the blade. Keep the machine narrow enough to go through a 30 inch door.

The carriage is made of 1/2 inch water pipe secured together very snugly. Be sure to stuff the upper ends of the long pipes with rags before assembly to make it easy to pour the bearings later. The pipe rectangle is joined together by the union at centre bottom. Keep the horizontal top piece the same length as the union plus the two short inside nipples at the bottom.

The mandrel is 5/8 inch diameter with 1/2 inch (right hand) threaded end and pressed on shoulder. The bearings are made of high quality babbit poured inside the pipe tees.

To pour the bearings the mandrel is inserted through the assembled pipes at the top and the assembly is turned on its side so the shaft is vertical with the shoulder end down. Then the space between the shaft and the pipe is filled with dry sand up to the bottom of the upper tee, being sure the shaft is well centred. The space in the upper tee is now filled with molten babbit.

Pull out the shaft, insert from babbit end, turn over the assembly and fill with sand again to the proper height and pour the second bearing. Fill both bearings quite full with babbit to provide a shoulder for end

thrust. Pull out the shaft, pour out the sand, drill oil holes as shown in the diagram, and buff the bearings with sand paper. This makes permanently aligned and enclosed bearings with an oil reservoir in the middle.

The motor wires and extension cord are joined inside a utility switch box fastened to the frame. A 1-3 h.p. motor should be used. Pulls should be 4 inch on the motor, 2 inch on the saw, with V-belt.

FOR AIRLINERS

Airliners have specially-made tea-pots, hot water jugs, milk jugs and sugar bowls that it into one another when not in use, to save valuable space.

THE SPORT WORLD

MOOSE JAW, SASK., have recently opened a new golf course, the Moose Jaw Willowdale golf club. It opened with a match, president vs. vice-president event.

Without waiting to see all the high-powered overseas entry list, many British tennis experts have picked a wiry South African to win the men's singles title in the Wimbledon championships.

Forwards George Stevens and Roy Glover, both members of Winnipeg Flyers senior hockey club, have been named to the team to play in the Quakers of the Western League. The signing of the two players brings to three the number of players leaving to play in the U.S.A. Yachuk signed to play for Calgary.

National Hockey League fans can obtain copies of N.H.L. Statistics free of charge. These handy-size record cards contain the final standing of the Clubs, the individual scoring records for every player during the regular schedule and the Stanley Cup Play-Offs, as well as the Goalkeepers averages and the Penalty Records of each Club. Requests should be mailed to: National Hockey League, 603 Sun Life Bldg., Montreal, Que.

J. M. Dechene, Liberal member for Athabasca, said in Commons that a lesson is to be learned from the Allan Cup series which ended recently in Calgary. "Integrity and honor still exist in this country and are not for sale." He had heard some people say that Edmonton Flyers would lose the last game so the teams could move to larger games in Edmonton. By winning, the Edmonton team had shown the series was not "fixed".

The Northeastern Baseball League was reorganized for its third season since the end of the war. The meeting, held in Kansas, Sask., was well attended and it accepted applications from 16 teams to join the league. As a result of the overwhelming entry the league will now operate in three separate divisions, east, west and north. In the west division teams from Canora, Minkado, Buchanan, Sturgis, Freeseville and Stonewill enter. In the east, Kamsack, Runnymede, Togo, Veregin and Stony Creek and in the north, Hyas, Pelly, Arran, Pelly Indian agency and Kamsack, Kolts.

Climaxing his greatest season in the National Hockey League, Buddy O'Connor, 31-year-old centre star of the New York Rangers, became the first player in hockey history to win both the Hart and Lady Byng Trophies in the same season. In capturing the Dr. David A. Hart Trophy, awarded annually to "the player adjudged to be most valuable to his team," and the Lady Byng Trophy, which is awarded annually to "the player adjudged to have exhibited the best type of sportsmanship and gentlemanly conduct combined with a high standard of playing ability during the season," O'Connor was enriched by \$2,000 from the N.H.L. Each trophy carried a cash value of \$1,000 to the winner.

Woman Awakens After Twelve Years Of Sleeping Sickness

WHITE PINE, Tenn.—Folks in this Smoky Mountain community marvelled at the constant youth of a modern feminine "Rip Van Winkle" and wondered whether 12 years' sleep could do the same for them. The object of their wonder was 52-year-old Mrs. Clara Reynolds. She lapsed into sleeping sickness a dozen years ago and awakened for the first time only a few weeks ago.

But it was not until recently that the story of the "White Pine miracle" leaked out of this foothills settlement of 600. Since then, the white-frame combination home-furnish-parlor where she slept through the New Deal, Pearl Harbor and the advent of the atomic bomb, has become a mecca for the curious.

The atomic bomb is still with us. But it, like talk of another war, is unknown to Mrs. Reynolds, a graceful, white-haired lady who remembers little of her long slumber and cares even less to recall the life she knew before. The only difference she has noticed between the worlds of 1936 and 1948 is that "the young girls seem to have more freedom nowadays and, my, how White Pine has grown."

"We figure the world is so upside-down we don't read the heavy news to her, only the bright stories that make her laugh," said Mrs. Alfred Sartain, a sister-in-law. She and her husband nursed Clara against the "better judgment" of her neighbors.

Clara has a new ray, schoolgirl complexion. She plays ball on the

front lawn every day with the Sartain's orphaned niece and nephew, Alice, 10, and Johnny, 12. There is a spring in her walk that she lacked before. Still more puzzling, she didn't have to learn to walk again, as do most bed-ridden persons.

Doctors were stumped, too. So were some of the neighbors who said privately the Sartains were wasting their time and money caring for Clara. It's still uncertain whether she'll go back to sleep, Mrs. Sartain said.

On the day of the awakening, Mrs. Sartain went into Clara's room and, because she admittedly likes to talk, asked her usual question: "How are you this morning, Clara?" She hadn't received an answer in 12 years, and she didn't expect one that day.

"Just fine," Clara said. It stunned Mrs. Sartain. But she recovered sufficiently to seat Clara in her wicker chair next to the window.

"What is that, a tree?" Clara wanted to know.

"Yes," replied Mrs. Sartain. "That elm tree has been there these 12 years, and this is the first time you've noticed it, isn't it?"

Clara confessed it was. She could remember only that she often tried hard to open her eyes but couldn't, and that she had a feeling some times she was far, far away.

Clara's recovery is a great thing, Mrs. Sartain said.

"I feel like I've been let out of jail," she sighed.

Amputate Man's Legs By Roadside

NEW YORK—A cold, driving rain beat down on the two policemen standing white-faced and grim beside a wrecked automobile.

The wind whipped at the tarpaulin they held in their hands. Beneath the makeshift shelter Dr. George Rizzoli worked swiftly with his scalpel and saw, cutting off the legs of the man slumped beneath the car.

Passing motorists, unaware of the drama at the edge of the highway splashed mud on doctor and patient as the operation progressed.

The victim was Staggie Lenzo, 26. He was driving down the highway with his brother and companion when he swerved to avoid a car. His car hit a lamp post and overturned, pinning his legs against the curb.

An ambulance brought Dr. Rizzoli. He decided an emergency amputation of Lenzo's legs was necessary to save his life.

Lenzo's brother, Salvatore, 26, and his brother-in-law, Anthony Dandrell, 28, were imprisoned in the car. Police restrained them as they watched the operation.

After the amputation, Staggie was taken to Mary Immaculate Hospital in Jamaica. Attendees said his condition was still critical, but he had a chance to recover.

Canadian Situation

Canada needs a sense of national unity, restrained by the moral glue of collective contribution to mankind, this

in quality to this great church, home, school, city and province is given to "Canadian" aspirations.

The Youth Problem

The three major factors in the life of any young person are the church, the home and the school. The Boy Scouts Association contributes a unifying action, bringing these into a progressive, integrated program of moral, spiritual, mental and physical development.

What is Scouting?

Scouting makes its contribution to international understanding because it is a World Brotherhood of some five million boys in some fifty countries. It breaks down barriers of class, creed and race. It is non-political, non-sectarian, non-denominational. It builds bridges between groups. It does not build fences. In Canada some 100,000 boys are being trained to be better citizens.

The Future of Scouting

If you accept the fact that Scouting is making a contribution to international understanding, to Canadian unity and to the future welfare of our citizens, you must realize that Scouting is not reaching as many boys as it should. There is a definite need for expansion if there are to be sufficient men of tomorrow who will appreciate the democratic way of life and who will be prepared to give intelligent leadership. Scouting is doing much with very little money. It cannot extend its usefulness to more young Canadians without increased facilities.

Dollars Of Decision

Dollars for Scouting are dollars of decision—the decision as to whether or not there will be sufficient men of tomorrow who have grasped the true democratic spirit of our civilization and of our times.

Ideals And Influence

You may rest assured that any dollars you contribute to The Boy Scouts Association will be used to foster the ideals, develop the leadership, and extend the work of Scouting among the boys of Canada.

Smile of the Week—

CAN'T POOL THE FLIES

Sambo and Rastus were having their supper. A large fly was buzzing around Sambo, and Rastus endeavored to shoo it away from his friend.

"What sort of fly an dat?" asked Sambo.

"Dat's a hon-ry," replied Rastus. "They buzzes round rapplies meatly."

"Is you infering Ah's a jackan?" "Ah ain't infering nothin'," replied Rastus. "But you can't fool dem hon-flies."

Flowers Make Rapt

Water hyacinths grow so thick in the Clarence River in Australia that in flood times they form huge rafts, sometimes 400 feet across, which float down river carrying rabbits and other small animals.

The first ship of which we have any description was Noah's ark.

DISPLAY THEIR WINNING ABOUT CATCHES—The winning trout in Ontario's Grey and Bruce county derby, held by Earl Reid; 2nd prize winner, Dan Markle, Owen Sound; Ont., winner in under 16 class caught 2 lb. 3 oz. fish; W. E. Proctor, grand winner with 3 lb. 4 oz. trout, and Doug Howell, with 3rd prize fish.

As required by the Income War Tax Act, this will advise our customers, as referred to in the said Act, as amended, that in accordance with the terms and conditions and within the times and limitations contained in the said Act, as amended, it is our intention to pay a dividend in proportion to the 1948-49 patronage in respect of wheat, oats, barley, flax and rye delivered by our customers to our country elevators, out of the revenues of the 1949 taxation year, or out of such other funds as may be permitted by the said Act, and we hereby hold out the prospect of the payment of a patronage dividend to you accordingly.

Human Interest Stories

by Douglas W. Smith
Public Relations Officer, Canadian Legion, B.E.S.L.

Christopher North-Lewis was a smooth talking, pukka type RAF pilot who talked himself out of a jam and then right back into a real schmooze. He was roaring over the Rhine in his high-powered job and Monty's troops below were pouring across the muddy waters. Suddenly his engine sputtered and down he was forced to a little island in the middle of the Rhine.

Immediately he was surrounded by an aggressive bunch of square-heads, all bristling and ready to perforate him for Der Fuhrer.

Now, Christopher, as I said before, was a smooth talking hombre and he realized the position he was in was not exactly akin to a garden party in an Essex vicarage. So bold as brass he demanded to speak to the garrison commander.

Apparently the Heinie had never read the Maple Leaf, nor had Ribbentrop or any of the boys bothered to tell him that the curfew was about to ring down on the show.

At first Christopher old boy twiddled his RAF type handlebar soup strainer and tried to convince the Heinie that the works were blowing higher than a trip to Mars.

The Heinie, however, wasn't having any and was all for throwing Christopher back in the drink. Just then the sky was almost darkened by thousands of planes and troop-carrying gliders. This clinched the argument and Heinie sprang to attention and saluted the RAF type and gave him the keys to the garrison.

This was fine on the surface. But here was Christopher on an island with 120 Jerries all saluting like mad when he passed by and no way of even getting a mild and bitters.

He saw a British tank on the east bank of the Rhine and shouted to the crew that they could all be heroes and capture his prisoners. The tank men told him they hadn't time to bother with trifles and passed on.

Next he tried writing a message on the ground with all the white towels the garrison possessed. None of the aircraft overhead paid the slightest attention.

A few assault craft passed the island bound from the other side and Christopher shouted "Foi," but they passed him by.

The last I heard of Christopher he was dancing up and down in a frenzy on the island trying to get someone to take the prisoners off his hands and him back to his mess.

I don't know if Mr. Atlee knows about this, but I think he should take a peek on the island before he signs any final peace treaty. Maybe these guys don't know the war is over and maybe they've changed their minds by now.

VIKING ITEMS

St. Mary's Church was the scene of a very pretty wedding on Monday morning at 11 o'clock when Jean Elda Barker, daughter of Mr. and Mrs. Clayton M. Barker of Kinsella, Alberta, was united in marriage to George Nicholas Klontz, son of the late Nicholas and Mrs. Mary Klontz of Viking. Father O'Neill performed the ceremony and said the Nuptial Mass which followed.

For her wedding, the bride wore a gown of white organza with short sleeves and white nylon mittens. Her full-length veil was gathered to a beaded coronet. She carried a bouquet of roses and lilies of the valley. She was given in marriage by her father.

Attending the bride were Mrs. Grace Klontz, as matron of honor, dressed in pink crepe with a net overskirt, wearing a matching sweetheart dress, with finger tips and Miss Yerna Barker, gowned in blue taffeta with similar matching accessories. Each of the attendants carried a bouquet of pink carnations.

For her daughter's wedding, Mrs. Barker wore a dress of white printed jersey, while the groom's mother was dressed in a flowered jersey. Each had a corsage of red roses.

Messrs. Alfred Klontz and Robert Barker were the groom's attendants, while Mr. Jack Loughlin ushered the guests. The choir of St. Mary's Church rendered appropriate music during the ceremony.

About fifty guests were present for the reception which was held at the home of Mr. and Mrs. Henry Klontz, where tastefully decorated tables and flowers lent a pleasing atmosphere to the bridal festivities.

A public reception was held on Monday night at the Community Hall, Viking. This community was saddened to hear of the death of Mrs. Mabel Iona Martinell at Glendon, Alta. on May 17th, after a lengthy illness. The body was brought to Viking where funeral services were held from the Viking United Church at 2 p.m., conducted by Rev. A. Willis Cann. Hymns sung by the congregation were "What a Friend We Have in Jesus," and "Nearer My God to Thee." Mrs. Cann was soloist and sang "Face to Face."

Fall bearers were Messrs. S. J. Chiswell, Nels Nordstrom, James Taylor, Fred Hanson, W. G. Merta, and W. Hanson. Burial took place in the Viking cemetery. Funeral arrangements were in charge of Hainstock & Sons Ltd. of Edmonton, and Hennessy Funeral Home, Viking.

The late Mrs. Martinell was born March 11th, 1899, at Norland, Ontario, and came west with her parents to Wainwright at the age of 13 years. She attended the Wainwright public schools, then Normal school after which she began a teaching career, having taught over 25 years at various points in Alberta. She was married to Mr. Harry Martinell on December 25th, 1916, and lived at Edgerton and came to Viking in 1929 and resided here for ten years before moving to Glendon where she resided until confined to hospital two months ago. She was a loving wife and mother.

Mr. H. G. Rodewoldt, who was representative in Viking district for the Fuller Brush Co., and canvasser for the A.M.A., left this week for Norman, Wab., N.W.T. where he will be timekeeper for the Canadian Army. He will fly up from Edmonton on June 4th. Monday, May 24th was enjoyed as a holiday and it was typical, warm, sunny Alberta day. Many citizens worked in their gardens, and some took in the sports at Loughheed.

Miss Miriam Skaling was a week-end guest at the home of Mr. and Mrs. W. D. Murdoch.

Council Minutes

(continued from front page)

sions why the 1948 mill rate of the Wainwright school division No. 32 was struck at 21 1/4 mills on the dollar.

Therefore the council of the municipal district of Wainwright No. 61, although being reluctant of being a party to any controversy, nevertheless find it necessary to take measures to correct a wrong impression that may be accepted by the ratepayers through the Divisional Board's published minutes of 23rd April, 1948 meeting, in the striking of the 1948 mill rate by the Municipal District, do hereby direct the Secretary-Treasurer to set out in detail all information at his command with reference to the assessed values, requisitions, previous indebtedness, current levies discounts etc. from 1942 to 1947, inclusive of the Wainwright school division No. 32, in an open letter as herein before mentioned.

Resolution moved by C. Sutherland.

Secretary reported that all the provisions and requirements relative to Bylaw No. 220 have been complied with and that said Bylaw was ready to receive its third reading.

Arthur—That Bylaw No. 220 to provide for enlargement and improvement of the Municipal District office building in Wainwright receive its third and final reading.

Sutherland—That a building account amounting to Five Thousand (\$5,000.00) dollars be set up with reference to Bylaw No. 220.

Archibald—That the matter of office accommodation, that same be left to the Building Committee with power to act.

Letter of appreciation and thanks from H. Kennedy for temporary relief extended on account of fire destroying his home, read and filed.

Archibald—That this Council recommend to the Old Age Pension Department that the pension of George Krozer No. 27979 be increased to the maximum allowed.

Sutherland—That the report of C. Smaile and the Secretary re Louis Lagerquist to this date be accepted.

Archibald—That the report of C. Arthur re J. Fillion, Blind pensioner, be accepted.

Smaile—That this Council lease to George Madder of Fabyan, for pasture purposes, the SW 28-45-7, property purchased by the Municipal District for the sum of Twenty-Five (\$25.00) dollars per annum, provided he fence the north side of the Gravel Pit, as suggested by Mr. Madder.

Sutherland—That the following leases be approved: R. B. Fitzgerald Cultivation, SW 16-43-2 S. of Railway, C. H. Ford, Grazing, NE 12-46-7, J. Germain, Cultivation, NW 28-44-2.

Smaile—That in the matter of the SW 12-45-5, that same be leased to Louis Hedlund for a three year Cultivation Lease, said land to be subject to Section 13 of the Agriculture Services Board Act under supervision, and the deposit requirements be waived for 1948 only.

Archibald—That the Reeve and C. Smaile be a committee with reference to the suggestion of Mr. P. T. Haywood to exchange the SE 34 for the NW 34-43-6, and report at June meeting.

Bylaw No. 229 concerning the sale of the SE 6-42-4-4 to Felix A. Currier for \$600.00 cash presented.

Archibald—That Bylaw 229 pass its first reading.

Spencer—That Bylaw 229 pass its second reading.

Dallan—That Bylaw 229 pass its third and final reading.

Bylaw No. 230 concerning the sale of the SW 7-42-3-4 to Lance V. Jackson for \$280.00 cash presented.

Taylor—That Bylaw 230 pass its first reading.

Smaile—That Bylaw 230 pass its second reading.

Archibald—That Bylaw 230 pass its third and final reading.

Secretary obtain plan of survey re the west side of 19-44-6, R. H. Valleau and the SW 2-43-4-4, Don Pawsey.

Arthur—That this Council recommend the closing of the road allowance between Sections 34-35-45-7-4.

Sutherland—That the opening of Tender No. 2/48 be held over until 10th June, 1948 and that the Secretary write MacLean and Dunne, Barristers, re L. L. Pound, that if this party will call at the office of the Municipal District and let it be known what his alleged claims

are, the Council will consider his case.

Sutherland—That the report of the Field Supervisor, 3rd April to 8th May, 1948 be accepted as read and filed with his reports.

Cd. Smaile—That this Council purchase one 32 foot Power Sprayer Boom from L. C. Tory for the sum of \$200.00, to be used for weed spraying.

Archibald—That the Secretary contact the Superintendent of the Buffalo Park with references to the burning of valuable grass in the said Park and adjoining property by the Department of National Defence, if the burning of the grass is considered unnecessary that a letter of protest be sent to the Minister of Defence at Ottawa.

Cd. Mr. F. W. Maddex, Field Supervisor, advised the Council that he had received the appointment of Weed Inspector for the Town of Wainwright.

Taylor—That the following order be placed with the Union Tractor and Equipment Co. for 1948 delivery: 2 Caterpillar D4 tractors, 60" gauge, 2 Caterpillar 4A 60" gauge Angle Dozers, 2 Kay Brummer 4 yard Scrapers at a cost of \$20,792.00 dollars.

Cd. Secretary read a reply to a letter from the Union Tractor and Equipment Co. that the new No. 12 Motor Grader will be delivered equipped with Firestone tires.

Smaile—That the following order be placed with the Richardson Road Machinery Co. for the 1948 delivery: 2 Model No. 666 Rotary shovel snow ploughs at a cost of \$1400.00 dollars each.

Cd. Smaile—That the road ban imposed in the Municipal District 19th April, 1948 be lifted effective 7:00 a.m., Monday 17th May, 1948.

Cd. Spencer—That the report of the proceedings of the Public Works Committee Meeting held in Wainwright 6th May, 1948 be amended by deleting after the figure 4, where same appears on line 19 of the Report the bracketed notation "(Division 2 for Maintenance only.)"

Cd. Sutherland—That the report of the Public Works Committee Meeting held 6th May, 1948 as amended be adopted and incorporated in the minutes.

Arthur—That in 1948 Motor Graders totaling by divisions throughout the District so that each Division shall have average use of both heavy and light motor graders if and when needed.

Smaile—That an order be placed through the Alberta Association of Municipal Districts for two 1300x24 one 700x20 Firestone tires and one inner tube 700x20.

Cd. Archibald—That the letter from A. Knudson, mail courier, Irma, Alberta, be received and noted, and that the Secretary write the Municipal District of Minburn to give consideration to the construction of roads on Mail Routes Nos. 2 and 2 out from Irma Post Office Cd.

Sutherland—That the following pay sheets amounting to \$9,844.46 be passed and paid when approved by the Councilor concerned.

Taylor—That the 1948 Public Works monies provided for in the Estimates passed 3rd April, 1948, be allocated as 50% divided equally into the 7 divisions, the remaining 50% Divisionsal Assessments.

Cd. C. Smaile—That the Secretary contact the Prairie Farm Assistance Office asking the Township 45, Range 8 and Township 45, Range 9, be rechecked for a possible 7b Block for 1947 crop year.

Archibald—That the Secretary write the Alberta Association of Municipal Districts for information with reference to prohibiting the establishment of a Hutterite Colony in this Municipal District, as advice has been received that such a settlement is contemplated.

Cd. Spencer—That the meeting adjourn until 9:00 a.m. Thursday, 10th June, 1948.

DON'T SEED TOO DEEP

The federal department of agriculture has evidence to show that most farmers in the prairie provinces of Western Canada seed their grain at excessive depths. Deep seeding decreases yields. The favorable depth for seeding wheat, oats, barley and rye is from two to three inches. Flax should be sown at a shallower depth.

The use of the one-way disc with seeder attachment is usually responsible for seeding too deeply. Frequent checking of the depth of seeding is essential. Adjustments should be made during the first few rounds to insure uniform and shallow penetration across the width of the machine.

Irma Track Meet Winners

BOYS

16 and over:

100 yd. dash—Don Ramsay, Jack McKay.

220 yd. run—Don Ramsay, Stan Hill.

Running broad jump—Andrew Orcheski and Don Ramsay, (tie), Jack McKay, 2nd.

High jump—Jack McKay, Don Ramsay.

Hop, step and jump—Jack McKay, Stan Hill, Andrew Orcheski.

14 and 15 years:

100 yd. dash—Keith Firkus, Clifford Overbo, Allan Darks.

220 yd. run—Keith Firkus, Clifford Overbo, Melvin Dawson.

Broad jump—Clifford Overbo, Melvin Dawson, Allan Darks.

Hop, step and jump—Clifford Overbo, Keith Firkus, Allan Darks.

High jump—Gordon Hollinger, Allan Darks, Malcolm Frickleton.

12 and 13 years:

100 yd. dash—Arnold Enger, Clark Steele, Charles Allen.

75 yd. dash—Arnold Enger, Charles Allen, Garth Tomlinson.

High jump—Arnold Enger, Ronald Prior, Clark Steele.

Soft ball throw—Clark Steele, Charles Allen, Garth Tomlinson.

Broad jump—Arnold Enger, Ronald Lovig, Bob Goodwin.

10 and 11 years:

50 yd. dash—Charlie Larson, Gordon Lovig, Warren Fuder.

Broad jump—George Bacon, Gordon Lovig, Jimmy Lingley.

High jump—Harold Dootson, Douglas McLean, Charlie Saville.

Three-legged race—Jimmy Lingley and Charlie Larson, George Bacon and Keith Steele, John Hill and Erling Nelson.

Softball throw—Charlie Larson, Keith Steele, Erling Nelson.

8 and 9 years:

50 yard dash—Bobby Lukens, Arthur Lovig, Donald Morse.

Standing broad jump—Bobby Lukens, Arthur Lovig, Donald Morse.

Three-legged race—Wayne Pendleton and Bert Smith, Donald Morse and Ronald Larson, Leslie Ballentyne and Donald Hanson.

Wheelbarrow race—Arthur Lovig and Lloyd Kennedy, Martin Lovig and Merville Mikkelson, Wayne Pendleton and Bert Smith.

Under 8 years:

25 yard dash—Billy Lingley, Jimmy Kennedy, Ronald Fenton.

Three-legged race—Gary Archibald and Mike Dubasz, Billy Lingley and Gerald Reber, Ronald Fenton and Ronnie King.

Standing broad jump—Dennis Worthing, Billy Lingley, Mike Dubasz.

GIRLS

News From The Wheat Pool

Pool Reserve Purchase

The Alberta Wheat Pool has mailed cheques to a value of \$602,801.84 covering the purchase of Pool reserves from the estates of deceased Pool members and also from farmer members who attained the age of 75 years as at December 31, 1947.

In recent months the Alberta Pool has also redeemed reserves to the value of \$80,781.39 from members who had passed their 65th birthday on December 31, 1947, and who had ceased to have any interest in grain producing land.

The total payment in redeeming all categories of reserves during the current year was \$683,583.23. The reserves thus redeemed were contributed by the membership between the years 1923 and 1928.

Reserves are purchased on one hundred cents on the dollar. They will be re-issued in the form of patronage dividends to patrons of Alberta Pool Elevators.

Coarse Grains Adjustment Payment

The Alberta Wheat Pool mailed cheques totalling approximately \$530,000.00 to farmers who delivered oats and barley between August 1 and October 21, 1947. The payment was 14 1/2c a bushel on barley and 10 1/2c on oats.

From August 1 to October 21 of last year the federal government maintained ceiling prices of 65c a bushel for oats and 93c a bushel for barley, basis Fort William. Farmers who delivered those grains in that period had to accept those prices. On October 21, the ceilings were removed and prices advanced sharply, creating an unfair situation to those who delivered oats and barley earlier.

This matter was discussed at the annual meeting of the Alberta Wheat Pool held last November, and a decision was reached to refund excess earnings on the volume of oats and barley delivered prior to October 21 to the farmers who had made such deliveries.

Grain Producers Can Increase Their Pool Reserve Holdings by Patronizing Alberta Pool Elevators. Alberta Pool Reserves are Valuable Property.

Make This Year a "Pool Elevator Year"

Western Canadian
NATIONAL BARLEY
CONTESTS
for 1948

2 BIG CASH PRIZE LISTS

ONE for FARMERS

For entries of 500 bushels of commercial grain from Western Canada's Malting Barley Areas.

FARMER'S COMPETITION PRIZE LIST

9 REGIONAL CONTESTS—3 regions in each province—Manitoba, Saskatchewan, and Alberta (including Peace River Block).

First Prize \$100
Second, \$80; Third, \$70
Fourth, \$60; Fifth, \$50

3 PROVINCIAL CONTESTS

First Prize \$400
Second, \$300; Third, \$200

INTERPROVINCIAL CONTEST

First Prize \$1000
Second, \$500

ONE for SEED GROWERS

For entries of 500 bushels of Registered Certified Seed from seed growers in Western Canada's Malting Barley Areas.

SEED GROWER'S COMPETITION PRIZE LIST

3 PROVINCIAL CONTESTS

First Prize \$275
Second, \$175; Third, \$125
Fourth, \$100

INTERPROVINCIAL CONTEST

First Prize \$1000
Second, \$500

All farmers and seed growers in malting barley areas are eligible. Only one entry from each farm unit.

SEEDTIME and HARVEST

By D. M. McLEAN,
Assistant Director,
Livestock Farm Service,
Winnipeg, Manitoba

Abnormalities Caused By 2,4-D

During the past two years considerable information has been gathered, based on the experience of investigators, farmers and others, on the effect of 2,4-D on cereal crops and flax. Of the main field crops grown on the prairies, wheat and rye have shown a higher resistance to 2,4-D than either oats or barley. Flax is much less resistant to damage than cereal crops.

Tolerance of Crops to 2,4-D.—Overdosages or application of 2,4-D at the wrong stage of growth may cause many unusual abnormalities to appear on the growing crop. Symptoms of damage in wheat, rye and barley, may be indicated by clubbed heads, twin heads or multiple spikelets. Oats, on the other hand, may show double panicles, leaves with both edges curled inwards or thick, flattened stems, while flax may show twin bolls, flattened or twisted stems and delayed maturity.

Seed growers, crop inspectors, and others should be familiar with these abnormalities where the purity of the crop is being considered. Malformations caused by 2,4-D should be recognized as such, and not confused with regular off-types which may be present in the crop.

Proper Application of 2,4-D Important. The official recommendations which have been widely publicized in bulletins prepared by the Provincial Departments of Agriculture, are based on the best available knowledge and should be followed to the letter.

In order to reduce crop injury to the minimum, 2,4-D chemical for the control of weeds should not be applied:

1. until cereal plants are about 5 inches high and flax plants about 4 inches high (or about 3 weeks after emergence),
2. after cereal plants reach the late shot-blade stage and flax the late bloom stage.

Chemical weed killer will be used this coming season on thousands of acres of prairie crop land. Excessive dosages or application at the wrong stage of growth must be avoided if farmers are to achieve effective control of weeds, with a minimum of injury to the crop and still make the most economical use of the chemical.

SHORTHORN SALE

Claude Gallinger, of Edmonton, noted breeder of registered Shorthorn cattle, held his annual bull sale in the capital city on Tuesday. Auctioneer Bill Durno disposed of 35 bulls at an average price of over \$1,700, a Canadian record for the breed. Top price was \$6,000 paid by Lester Brown of Sandpoint, Idaho.

"No society is static, but hunger and poverty, illiteracy and misery will challenge the more luxurious civilizations and be convulsive influences." —Mrs. James Thorn.

IF you are CONTEMPLATING a TRIP to the U.S.

• . . . you will need to secure a Form H. Permit from your bank, if you take with you more than \$10 in United States funds, or more than a total of \$25 in Canadian and United States funds.

• To ensure that available United States dollars are distributed in a way that is fair to everyone, an annual travel ration of \$150 U.S. per person for the 12 months between Nov. 15, 1947 and Nov. 15, 1948, has been established. In the case of children under eleven it is \$100 U.S.

This caution is given for guidance of the public and to help avoid embarrassment at border points.

MINBURN BOARD SETS SPORTS DAY

MINBURN, May 22.—Minburn Board of Trade held a special meeting recently where it was decided to hold a second annual sports day as sponsored by this organization on July 7. This Sports Day was originally planned for June 9, but due to the uncertainty of the King's birthday it was decided that July 7 was more suitable. Five hundred dollars will be given in prizes.

Minburn Jolly Jokers Girls' club meeting at the home of Mrs. J. Miller, chose May 26 for achievement day. The girls are planning a social gathering where all work will be displayed and lantern slides of other girls' clubs will be shown.

"We are now reaping the benefit from years and years of patient research on the part of Canadian agriculturists who have worked so hard to improve breeds of livestock." —Major D. G. W. Douglas.

LIBERALS PLAN PROVINCE-WIDE SEAT CONTEST

Alberta Liberals plan to contest every seat in the province at the next provincial election, according to Harper Prowse, Alberta Liberal leader.

The party has been inactive in the provincial field since the election of 1940 when forces were joined with the Independent movement in Alberta in an effort to defeat the Social Credit government of William Aberhart.

Election of Mr. Prowse as party leader last summer indicated the Liberals were in the field as a party.

So far the Liberals have held only two nominating conventions. At Grouard, Andre M. DeChene, young Edmonton lawyer, was named to contest the seat in the Liberal interests. Arthur Keay was named as candidate in Spirit River constituency.

Hints From Your Field Supervisor

TOAD FLAX

Toad flax is taking a heavy toll in some districts in the M.D. of Wainwright, particularly in the Chauvin and Heathe districts, and is also being noticed in the Irma district.

Toad flax is a very serious Noxious weed and is now being classed as the "5th Bad Weed." In the early stages it resembles Leafy Spurge, but later it resembles Snap Dragon plants with a bright yellow and white flower. Some times known as the Butter and Eggs plant due to the color scheme of the blossom. A very extensive shallow root system and the plants appear to grow very close together.

Anyone would be well advised to watch their fields closely this spring and mark with a stake any patches that look suspicious, so that the weed inspector may locate them and advise the proper control measure.

MUNICIPAL DISTRICT OF WAINWRIGHT

No. 61

Wainwright, Alberta

NOTICE

Public Notice is hereby given that there has been introduced in the Council of the Municipal District of Wainwright No. 61 a By-law of which the following is a short synopsis:

By-law No. 222 for the purpose of governing the running at large of domestic animals within all that part of Township Forty-four (44) South of the railway in Range 6, and Sections 12, 13, 24 and 36, Township Forty-four (44) South of the railway in Range 7, West of the 4th Meridian

And that a copy of the same may be seen in each of the following places:

Post Offices at Irma Fabyan, Wainwright, Greenshields, Heath, Edgerton, Ribstone and Chauvin; Municipal Office, Wainwright; NW 5-43-2-5, SE 10-42-4-4, SE 30-44-3-4, NE 30-45-4-4, SW 30-45-6-4 and the SW 26-46-0-4.

The By-law petition the council to submit the By-law to the And further, that unless within thirty days from the publication of this notice, at least fifteen per cent. of the proprietary electors of that part of the municipality covered by the By-law petition the Council to submit the By-law to the vote of the proprietary electors of the said part of the municipality, the Council will proceed to pass the same.

Dated at Wainwright, Alberta, this 20th day of May, A.D. 1948.

CHARLES WILBRAHAM,
Secretary-Treasurer.

BRING YOUR LIVESTOCK ON MONDAYS

VIKING MEAT MARKET and LOCKERS

AFTER ALL, WHAT ELSE MATTERS?

The most tragic indictment of civilization in the world's history lies in the prospect of the two greatest, most self-sufficient nations on earth getting set to tear each other to pieces.

The tragedy of it, the pitiful inexcusable tragedy lies in the lack of human leadership which would recognize that for the cost of a single atom bomb and the destruction it can wreak, countless thousands of unhappy humans could be made happy, self-sustaining and useful.

For the price of many atom bombs, war planes, ships, munitions required to wage a war, the entire world could have its economic face lifted. Where hunger, privation, pestilence, want, insecurity and fear rules today, there could be peace, contentment, hope for the future.

Uncertainty and tears would give way to happiness and laughter. There would be a new freedom—a world-wide freedom.

Why can't these two great nations join hands in such a venture, become "Big Brothers" to a sick and apprehensive world, sharing the joyous and benevolent task of promoting peace on earth, good will toward men?

Neither politics, race, creed nor religion need have a predominant part in such a project. Humans everywhere would applaud it, and surely it would have God's richest blessing . . . And when all is said and done, what else matters. —Fairmont Daily Sentinel.

is being sponsored by the Municipal District of Wainwright Agricultural Service Board. Application forms are available at the Municipal Office at Wainwright and may be had for the asking. Anyone who wishes to enter their farm and is unable to get a form or did not receive one in the Financial Statement, may make application by just simply writing your name and address on a piece of paper along with the number of acres held and the location of your home buildings and mailing to Mr. Robbles or myself and we will fill in your application form from that.

It is very important that you enter this year to be eligible for the Improvement Competition next year and the following year. It is felt that this campaign is a wonderful opportunity to get your farm on a scoring basis so that you can see if your farm program and rotations are improving the quality of your farm or whether you are unconsciously Mining the Soil.

Don't forget, be first there, first served.

Canada To Spend \$700,000 To Settle D.P.'s

Canadian Government Also Considering Project To Advance \$350,000 To Provide More Ships

GENEVA.—William Hall Tuck, executive secretary of the International Refugee Organization, said that the Canadian Government may spend \$700,000 to settle in Canada 1,000 European refugee families, mostly from displaced persons camps in Germany, Austria and Italy.

Speaking at a meeting of the preparatory commission of the refugee organization, Tuck singled out the possible Canadian initiative as a contrast to the "calculated, grudging policy" of many countries which accept only refugee workers without dependents.

He added that the Canadian Government also is considering a project to advance \$350,000 to the refugee organization to provide it with more ships.

Tuck said some refugees might be flown to Canada.

Tuck also disclosed that Britain received more than 45,000 refugees and displaced persons in the eight months ending in February, more than twice as many as any other country.

Next largest intake was Belgium, with 16,788 coal miners, followed by France with 14,300 refugees, the United States with 12,200, Canada with 11,500 and five Latin-American countries with a total of 13,000.

Tuck warned that 1,000,000 homeless refugees may not be settled for at least four more years unless governments change their policies.

The United States is studying a plan to admit 100,000 in two years, he said.

Australia is also expected to undertake a liberal family scheme shortly. Venezuela, Norway, French and Dutch Guiana, the Cameroun, Ethiopia and Angola are also studying resettlement schemes, he added.

"The refugee problem is not being solved, because we have too little money, too few ships and too little important of all, too little Christian charity among nations," Tuck said.

Citrus Fruit Juice Source Of Vitamin C

Drinking a daily glass of canned orange or grapefruit juice about the easiest way to be sure that the requirement for vitamin C has been met. The wish for variety sometimes makes people choose from other kinds of canned fruit juices and nectars that are popular today, but none of these are as good choices for vitamin C or for economy as the citrus juices.

The vitamin C content of different juices varies widely from little or none at all in grape juice, apricot nectar and prune juice to a full day's supply in a glass of citrus juice. Oranges and grapefruit are naturally high in vitamin C and retain most of their vitamin content during the canning process. Other fruits have a much lower initial vitamin content and the processed juice contains a comparatively small amount of the vitamin.

Pineapple juice is well-known for its flavor, but a glass of pineapple juice will provide only a small part of the daily requirement of vitamin C, and the cost of a serving is higher than that of citrus juice.

A comparison of the approximate cost of various juices purchased in large cans and the amount needed to provide a day's supply of vitamin C shows that orange and grapefruit juice are the most practical and the least expensive sources.

Victorian Boy Caught Rare Fish By Hands

VICTORIA, B.C.—A rare, sabre-toothed, deep-sea shark four feet in length, received a surprise when a 16-year-old youth jumped out of his rowboat and grabbed it with bare hands.

The youth, Paul Norton, Victoria, told this story: "I went out in a rowboat to fix an anchor—then I saw something flapping around in the water close to shore.

"I jumped out of the boat and grabbed it."

The fish put up a struggle and Paul ran to shore, grabbed a stick and finally succeeded in overcoming it.

Dr. Clifford Carl, director of the provincial museum here, said the specimen is a rare "hand-saw" fish usually found 130 to 140 fathoms under the sea.

Going officially under the name of *Alepidosaurus Ascalaphus*, the fish is called "hand-saw" because of the irregular scalloped appearance of its dorsal fin which is supported by many sharp spines.

Chinese art dates back some 4,000 years. Men did intricate carving in wood, ivory and jade; women embroidered in silk and gold thread.

Gold For Daytime Wear Latest In Canadian Shoes

★ ★ ★ ★ ★

Canadian women will be wearing gold on their feet this summer, for gold is the latest novelty in milady's shoes. The low wedge, (shown above), combines black suede with gilt, is only one of the many versions on the way for the months ahead. White and gold shoes will form a dazzling complement to a white dress, with the color theme repeated by a narrow gold belt. Another conversation provoking ensemble will be beige, complemented by gold shoes and the same belt. Simplicity is the keynote of the outfit at left. Made of rust linen along classic lines, it is given extra eye-appeal with white stitched tabs and stitched edgings around the V-neck and slashed sleeves.

★ ★ ★ ★ ★

Treasures Worth Millions Lie In Sunken Ships

WASHINGTON.—The new look at coast resorts this summer will be the downward look. A mid rage of beachcombing and probing in coastal dunes may be expected to follow the recent discovery of gold coins of the mid-1700's near Sandy Hook, N.J.

The lure of undiscovered treasure may inspire better-equipped salvage expeditions. It could even produce a popular-priced diving rod for shore cottagers' use.

For it is a matter of record that treasure worth countless millions lies in hundreds of sunken ships only a few fathoms down, all along the world's coasts. And there are the countless stories of fabulous pirate loot buried ashore.

In New York's East River, 30 miles north of Sandy Hook, the British frigate *Huscar* sank in 1780 after hitting a rock. It went down with \$4,000,000—possibly much more—meant as pay for British Redcoats. Salvage attempts have been numerous, but without success.

Quite similar was the fate of the British frigate *Lexington*, carrying gold and silver bullion north from Vera Cruz, Mexico. It sank in the same year close by in Hell Gate Pass, and its treasure has never been recovered.

A mile off Lewes, Del., the warship *De Braak* sank in 1798, victim of a sudden squall. Attempts to salvage its \$15,000,000 cargo of precious metals began a year later and have continued to the present day. Rumors of finds of old coins on nearby sands have persisted.

To sample more recent times in the same east-coast area, the British liner *Republic* foundered off Nantuxet in 1909, taking \$2,000,000 in American "gold eagles" to a grave so far too deep for salvage.

In 1911, the liner *Merida* carried \$5,000,000 in specie, bullion, and storied Mexican jewels to Davy Jones off Cape Charles, Va. Both sinkings resulted from collisions.

The Japanese turn over the whole proceedings to the bulls, which saves wear and tear on mankind. The bulls enter a ring, look horns and shove each other around. Anything goes but the first to fall or retreat is whipped.

To be sure the loser is disgraced. But he is alive, which is more than you can say for a bull which loses in Spain.

Historians estimate that throughout her history China has had about 4,000 civil wars.

DIES MYSTERIOUSLY—The body of Mrs. George Eustis Paine (above), 52, socialite of New York, was found on a lonely beach in Middletown, R.I. miles from the Paine summer estate. The cause of death was not apparent. She had been missing mysteriously from her New York home, where she seemed to be in the best of health and spirits.

School Girl Uses Plane To Play Hokey

CHICAGO.—Eleven-year-old Janet Jones played hockey via airplane. In a single day's absence from school she went 1,448 miles to New York and back.

Janet left home—ostensibly for school—Monday. When she didn't return Monday afternoon, her parents, Mr. and Mrs. Benjamin A. Jones, notified police.

Around 9 a.m., their telephone rang. It was a New York airline official who was suspicious because no one met the girl. Janet was with him.

The airline sent Janet (who said she had taken \$75 of family funds) straight home—by plane.

British Troops At Their Best When In Critical Spot

A recent Saturday Evening Post story on the Battle of the Kasserine Pass in North Africa brings out two points in war in which the British excel, says W. L. Clark, in the *Washington Star*. That Kasserine Pass affair was one of the worst defeats ever suffered by American troops. The Germans almost turned the war at that engagement, when they outsmarted the Americans for a brief period.

At a crisis in the battle, General K. A. N. Anderson of the British First Army issued his order: "No man will move from his present position except to advance on the enemy."

After the battle had been won, an American gunner spoke of the British troops and said: "First they had tea, and then they piled into those old, beat-up tanks, with the teapots dangling behind. The Germans were coming down the road with everything, but off they went, singing and cracking jokes on their way to suicide."

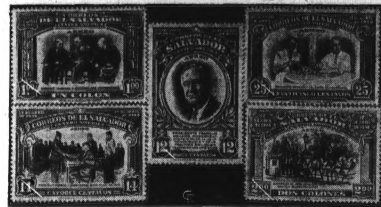

British generals have often issued that backs to the wall command. And, British troops have often had their tea and then gone out to die to save their country. It is in critical moments such as these that the British troops fight their best. When the chips are down and the battle is for keeps, the British soldier never will accept defeat.

NAMED IN MOCKERY

The word *silhouette*, which commonly refers to a profile drawing with its outline filled in black, was named in mockery of Etienne de Silhouette, 1709-1767. French minister of finance, notorious for petty economics.

STAMP CORNER

By JAMES MONTAGNES

Salvador has issued a commemorative set to the late President Franklin D. Roosevelt on the third anniversary of his death. Included in the airmail set are pictures in the life of the late president, showing (top left) Canada's Prime Minister Mackenzie King with Roosevelt, (top right) Winston Churchill, Roosevelt and his wife at home (top right), Roosevelt presenting decorations to service men (lower left), the Roosevelt state funeral procession (lower right), and portrait of Roosevelt as president (centre).

The small Central American republic of El Salvador is the first to honor Canada's prime minister, Mackenzie King, with a portrait on a stamp. On the 15 centavo postage and 1 colon airmail values, Mackenzie King is shown with the late President Franklin Roosevelt and Winston Churchill. The values are part of the sets issued on April 12 to Roosevelt on the third anniversary of his death.

Salvador has been issuing stamps since 1867, first stamps featuring the coat-of-arms. Anniversary of the landing of Christopher Columbus in the West Indies was marked on a set of 1892 on the 400th anniversary of the event. More Columbus sets appeared the next few years. In 1896 there was the first issue featuring some scenes in the country.

Various overprints appeared the next few years, and in 1912 there was a long set of statements of the republic to which more values and more portraits were added in the following years. In 1924 there was another pictorial set, which was later overprinted for airmail use, featuring scenes from the country, a map of the republic, and historical events. In 1925 there was a set to the fourth centenary of the founding of the city of San Salvador. The visit of Guatemala's president in 1929 brought a commemorative set, and the Third Central American Games a set in 1935. A set featuring natural products was issued in 1935 also.

The 150th anniversary of the United States Constitution in 1938 was marked with a flag stamp, featuring the flags of Salvador and United States. The same year there was a long set on products of the country, and in 1940 a stamp to mark 100 years of British postage stamps. A stamp to the First Eucharistic Congress of Salvador was issued in 1942, and a stamp to mark the opening of

Common Crow Worth \$500 In Cariboo

WILLIAMS LAKE, B.C.—The common crow is worth \$500 to the status of big game in this area.

Norm Schroeder returned from the Harrison game convention with the word that crows in the Cariboo may have \$500 price tags on their heads.

It seems that the State of Washington has been tagging crows for years with bands worth from \$5 to \$500. According to W. Neubreck of the Washington State Game Commission, there is a regular crow flyway between his district and the Cariboo.

Biggest money ever claimed says Neubreck, is \$25, so Cariboo hunters are keeping their guns ready for every crow that comes along.

ON THE SIDE —By E. V. Durling

When lovers parted
Peel broken-hearted,
Expect to die,
A few years older,
Ah! how much colder
They might behold her
For whom they sigh!

HORSES & WOMEN

So Lauren Bacall has been worrying about how she is going to look in a bathing suit. So much so she refused to play the title role in the proposed film, "The Girl from Jones Beach". If your wife has been worrying about the same thing tell her to cheer up. I understand a highly imaginative Paris bathing suit designer has originated a beach garment in which practically any woman, regardless of figure, can make a presentable, if not actually attractive, appearance. It is reported to be a "New Look" bathing suit that really gives the girls with the so-called "difficult" figures a break.

SAYS HE

"It is quite true most American women try to dominate their husbands, and the tragic fact is most of them get away with it," writes a New Yorker. "Born and raised in Europe, I married an American woman. She set out immediately to be the dominating party, our home, I turned her of that—and quick. She even let me one night and came back an hour later complaining any American would have run after his wife. Now we have been married 12 years. She has turned out to be a very satisfactory wife; a good housekeeper and a fine cook. As has been said, most American women dominate their husbands and despite their mates for letting them do it. Advise young husbands among your readers to get the upper hand in their home in the early days of marriage. That is the only way to win the real love and respect of a woman."

MULES AND MEN

"The claim that Admiral Dewey was bearded when he took Manila does not surprise me," states a Pittsburgher. "When I was in London shops there advertised the sale of 'corsets for men and women'. Many British army officers wore corsets. And why not? Surely a smart, trim figure is to be preferred to a bulging corporation. More men of today should wear them." (Perhaps this client is right. But I don't think what the men wear should be called corsets. Should be styled health belts, form compressors, smoothers or something like that.)

BEAUTY SHOPS

Detroit subscriber, who operates a beauty shop, says her business is not so good. That is understandable. According to a recent report, the women of the United States are spending \$250,000,000 less in beauty shops than they did in 1938. That doesn't mean the business is dying. It's just that many are giving themselves beauty treatments at home. As for example, with that gadget called a "home permanent wave kit".

OUR COMPLETE SHORT STORY—

EASY MONEY ::

By VALERIE CULLEN

VERY quietly he opened the back door of the hardware store, inch by inch, and picked his way over loose boxes and boards that littered the walk to the alley.

It was over now and he was five hundred dollars richer. He could just picture the face of Janie, the pretty clerk with whom he worked, if she saw him now.

"Jack Hallock, burglary is a fool's game. You'll get caught in the end. And how could you rob the store of the man for whom you work? How could you rob hard-working people?"

But she was wrong because he wouldn't be caught. Not ambitious Jack. He had planned and waited for this moment, waited until he knew the elderly watchman of the small town was having his usual coffee at one in the small all-night restaurant two blocks away.

Pausing uncertainly for the moment, he scanned the alley now clearly illuminated by moonlight. Forcing the lock off the door and battering the store safe had taken more time than he had anticipated.

His nerves had been unstrung by the eerie silence of the store, and each blow he struck the safe seemed to have been magnified a thousand times to his own ears, echoing and resounding in the murky darkness.

Once when a passing car broke the outside stillness, he had almost quit and fled. He stole himself to continue until the job was completed.

He would work for several more months at the store until suspicion had abated and then leave for a larger city. That five hundred dollars would go far in providing him with entertainment in night clubs and race tracks he had always dreamed of. And when that money ran out, there would be other stores.

No more of this small dead town for him. Other people might stare for their everyday bread but not him. In his mind people were divided into two classes—those who worked and those who were smart enough not to have to work.

He had been kicked around enough, he told himself, as a member of a large, poor family. He had never been given new clothes or books or spending money.

Janie, he told himself, had never known humiliation and want. Well, let her live the hard way; he'd take the easy money.

Moving cautiously out into the moonlight, he glanced at the thick rosemary hedge which enclosed the yard of the large home next to the hardware store. It was an old state home which had been built at the centre of the town when the town was young eighty years ago.

The rest of the block had gradually been built up, but the elegant, beautiful hedge still maintained the home's privacy and dignity, holding off the invaders. The sweet fragrance filled the air.

Janie, he remembered, lived there, and suddenly he hated the lovely scent, the dignified home, as symbols of something he had never had.

He jumped. Someone was coming from the far end of the alley. He had been right when he thought he was taking too long in breaking open the safe. The night watchman had finished his coffee and was coming his way.

For a split second he hesitated. He was still unseen in the shadows. If he ran out into the alley under the light, he would be seen by the watchman. Even if he did succeed in outrunning the old man, some car might be passing.

Turning, he ran swiftly toward the hedge, crashing through and ignoring the sting of scorpions. Ruthlessly he forced through the second hedge, trying to shut out the foolish old man's voice. "Stop! What's going on here?"

Swift pursuing steps came closer as Jack struggled to free himself of the hedge.

Then he was free. He ran swiftly down the block and then another. Behind him he heard shouts, then a pursuing car.

In another moment when the glare of the headlights had pinned him in an unescapable arc of light, Jack was sauntering casually, smoking a cigarette.

Brakes screeched and the watchman jumped onto the sidewalk. "Have you seen a man running this way?"

Feigning surprise and interest, Jack replied, "Sorry, but I haven't. What's up?"

"Don't know yet but something is wrong." The watchman came closer, looked hard at Jack.

"Been running?" he asked. "You're breathing hard."

Jack tried to laugh nonchalantly. "I'm just as excited as you are, pop. That's all. But I'm not your man."

He took a long pull on his cigarette. The watchman waved the smoke away in irritation, sniffed, and then grabbed Jack's arm. Startled, Jack cried to pull away, and as he did so, the driver of the car, sensing trouble, jumped out and rushed over.

The watchman turned to the driver. "Help me hold this man for the police. I've a good idea he just broke into the hardware store."

"You're crazy, pop," Jack protested. "You haven't got a thing on me!"

"No!" the watchman demanded. "But you smell pretty strongly of rosemary. Even got a couple of twigs on your coat. There's plenty of rosemary by the store. You must have been scared to run right through that, and I've a hunch you broke into the hardware store. Better come along quietly now."

ing the sting of scorpions. Ruthlessly he forced through the second hedge, trying to shut out the foolish old man's voice. "Stop! What's going on here?"

Swift pursuing steps came closer as Jack struggled to free himself of the hedge.

Then he was free. He ran swiftly down the block and then another. Behind him he heard shouts, then a pursuing car.

In another moment when the glare of the headlights had pinned him in an unescapable arc of light, Jack was sauntering casually, smoking a cigarette.

Brakes screeched and the watchman jumped onto the sidewalk. "Have you seen a man running this way?"

Feigning surprise and interest, Jack replied, "Sorry, but I haven't. What's up?"

"Don't know yet but something is wrong." The watchman came closer, looked hard at Jack.

"Been running?" he asked. "You're breathing hard."

There is no known region where it never rains. Even the deserts get an inch or two of rain a year, on an average.

STOUGHTON, Sask.—Charles Priest, of Haverhill, reported seeing what he believed to be 10 whooping cranes on his farm.

REGINA.—First prize of \$100 in the Saskatchewan bacon litter competition for 1947 was won by J. L. Brydie, Crane Valley, it was announced by C. E. Beveridge, provincial livestock commissioner. Mr. Brydie's total score of 314 points was 62 points higher than the total scored by Milton Kevel, Ormiston, who placed second to win \$70 award. Third prize of \$60 was won by W. L. Park, Dabada.

CALGARY.—It must have been fate that drew a Dr. Bunn from Red Deer, Alta., and a Miss Frankfurter of Winnipeg, to a Calgary hotel. If they had arrived two hours earlier, a well-known combination would have been made—J. C. Mustard, a travelling salesman, hit the road early in the evening.

DAUPHIN, Man.—It has been learned from Ottawa that \$200,000 is to be spent on road repairs to the Mountain Park highway.

EDSON, Alta.—A western Alberta committee of the Trans-Canada Highway Association—Yellowhead Route—was formed here. Delegates from 10 communities attended. The committee called for establishment of a Dominion highway commission Federal aid program on a 50-50 basis with Provincial governments and a meeting of the four western provinces to determine the most advantageous route through the west.

WINNIPEG.—E. T. Anderson, professor of horticulture, University of Manitoba, says that crabapples are the most satisfactory tree fruit for the Manitoba climate. He adds that strawberries are the most popular and successful of the small fruits.

KAMISACK, Sask.—The Retail Merchants' Association of this eastern Saskatchewan town, voted down a move to make Monday a weekly half-holiday instead of Wednesday.

SKUNKS ROUTED.—Queen's University students and a spaniel named Blackie routed and destroyed two skunks found under a hut in emergency-housing quarters here. Blackie, who attacked first—was successfully deodorized by a washing in tomato juice.

Engineers Save Strategic Bridge In Peace River

Vital Link In Alaska Highway To Supply The Far North

WHITEHORSE.—Canadian Army and civilian engineers have won their winter-long battle against time and weather to save an important bridge. That bridge is a vital link in the strategic Alaska Highway originally built as a military route to meet the Japanese war threat in the far north.

Drivers had been working through the Arctic winter under seven feet of ice to build a steel cofferdam—a water-tight protective casement—to save the Peace River bridge, damaged by flood waters.

The highway runs northwest from Edmonton, to Dawson Creek, B.C., and thence north and west through the Yukon to Fairbanks, Alaska.

Now the highway serves not only as a road over which supplies can be taken to Alaska from Canada and the United States. It also is the main route for American Military supplies and personnel for bases known to be under construction in Alaska.

The engineers' fight against time began last year when experts discovered that the \$4,000,000 suspension span 2,100 feet long was in danger of crashing down.

Their race was against both river water and ice. They feared that if the spring thaw broke the ice before their dam was in place—to stop further erosion—the huge ice blocks might knock the pier off its foundations.

Drivers cut a hole in the ice to work below water and one of their worries was to stop the hole freezing over them.

I asked the men, who worked in unheated diving suits, if it had been cold under the mass of ice and water.

"Sometimes we went down that hole to get warm," said one diver. "It was 50 below on top but 30 above down on the river bottom."

REPAIRS TO FLOOD-DAMAGED ROADS TO COST MILLIONS

CALGARY.—The Calgary Herald in a newspaper story estimated that Alberta's road bill to repair damage caused by floods and the spring thaw will run "considerably in excess of a million dollars."

A body at the earth's centre weighs nothing because the earth pulls it equally in all directions.

MUNICIPAL DISTRICT OF WAINWRIGHT
No. 61

Wainwright, Alberta.

NOTICE

Public Notice is hereby given that there has been introduced in the Council of the Municipal District of Wainwright No. 61, a by-law of which the following is a short synopsis:

By-law 223 for the purpose of governing the running at large of domestic animals during the months of December, January and February in any year, within all that part of W¹/₂ Townships 42 and 43, Range 2 South of the railway; Townships 42 and 43, Range 3; Sections 3, 4, 5, and 6, Township 44, Range 3; Townships 42, 43 and that part of Township 44, South of the railway in Range 4; South half of Township 44, North half of Township 43, and that part of Township 44, south of the railway in Range 5; Sections 10 to 36 inclusive in Township 43 in Range 6, and that portion of Township 44 lying between the East bank of Battle River and the West fence of the Buffalo Park, in Range 8; all West of the 4th Meridian.

And that a copy of the same may be seen in each of the following places:

Post Offices at Irma, Fabyan, Wainwright, Greenfields, Heath, Edgerton, Ribstone and Chauvin; Municipal Office, Wainwright; NW 5-43-2-4, SE 10-42-4-4, SW 30-45-6-4, and the SW 26-46-9-4.

And further that unless within thirty days from the publication of this notice, at least fifteen per cent. of the proprietary electors of that part of the municipality covered by the By-law petition the council to submit the By-law to the vote of the proprietary electors of the said part of the municipality, the council will proceed to pass same.

Dated at Wainwright, Alberta, this 20th day of May, A.D. 1948.

CHARLES WILBRAHAM,
Secretary-Treasurer.

"TIMBER"

Much has been said about the merits of insulation. The many kinds of insulation that is offered to the public today is proof that insulation is a recognized must in making the new home more comfortable and repairing the old buildings for better living. Especially in these far northern countries where the extreme cold penetrates so consistently. During the last World War the army found that rock wool met with the requirements of their building engineers in every detail. Gyproc wool batts are recommended for walls, ceilings, roof and floor insulation. The wool is fire- and vermin-proof (it can not burn). The paper back is a vapour barrier and the thickness of the batt allows for an air space next to the outside wall. Insulation and ventilation go hand in hand. Please let us explain this to you. It has been estimated that the savings in fuel amount to as high as 17 per cent. We have good stocks of Gyproc Wool, Zonolite and dry shavings on hand. Come and see us.

Imperial Lumber Co. Ltd.

Irma Sports June 7th

LOCALS

Mr. and Mrs. Phil Charter and family are visitors in Irma this week.

Miss Clara Ostad was a guest at the Klontz-Barker wedding at Viking on May 24. Mr. and Mrs. F. Clumstad and Arlene spent the 24th of May with Mrs. Clumstad's parents at Round Hill.

Everything is jumping ahead these warm days. The trees just popped their leaves out over night. It doesn't seem such a late spring after all.

Lorne Raham, formerly of Irma, has graduated as a mechanical engineer from the university of Saskatchewan.

Rev. and Mrs. E. Longmire were visitors in Irma on Monday, en route to the United church conference in Edmonton.

Mr. and Mrs. Art Reeves and family visited at the McFarland home this week. Mrs. Reeves was the former Evelyn York.

Born to Mr. and Mrs. Phil Ink in at the Wainwright hospital on May 26, a son.

Born to Mr. and Mrs. J. Bushey at the Wainwright hospital on May 17 a daughter.

The Rev. H. W. Inglis is attending the United church conference at Edmonton this week.

Born to Mr. and Mrs. M. McCune on May 18, a son, a brother for Linda.

Born to Mr. and Mrs. Jack Lloyd at the Viking hospital on May 17, a daughter.

Congratulations are due Mr. C. DeTro who graduated from the university of Alberta last week. We understand that Mr. DeTro now has his degree in science and commerce.

We are very glad to report that Mervin Lovig is home from hospital again and making a good recovery from his recent illness.

The next meeting of the Irma W.I. will be held at the home of Mrs. Thurston. Mrs. R. Larson will be in charge of the program. Mrs. E. Rae the raffle. Hostesses Mrs. Barber and Mrs. R. Larson. Roll call: A cure for the blues. Everybody welcome.

Messrs. P. Funk and Harry Lloyd motored to Vermilion on Tuesday last and had the unpleasant experience of having a plane from the air show crash nearby. Our two citizens were the first to reach the scene of disaster and worked frantically freeing the two men who were in the unfortunate craft. Both airmen were found to be dead when brought out of the wreckage.

Mrs. Arnold Knicely left Irma last week to join her husband at Wainwright where they will now make their home.

Mr. and Mrs. J. Bishop were visitors this week at the home of Mr. and Mrs. A. C. Milne.

Mrs. D. H. Gunn and Sharon are enjoying a holiday with Mrs. Gunn's parents at Ft. Saskatchewan.

Mrs. G. M. Holt and Charlie spent the long week-end at the Bar Heart ranch.

The Senior baseball team played its first games of the season at Loughheed on May 24. The boys won second money when they defeated Killam and were in turn defeated by Sedgewick.

Mrs. Edith Elliott underwent an operation in the Royal Alexandra hospital last week. Latest reports are that she is progressing favorably.

FISHIN'

The following lines express the way we all feel these spring days.

Fishin'

I tell you what I like ter do
Along about now when winter's through
An' summer comes a flutterin'
Aroun' with birds and evrythin'
Is jes ter dig some bait an' sit
An Fish!

I loves ter hear th' happy song
Th' cricket keep singin' all along
Th' song that somehow seems ter
say

'Oh ain't it fine an' gran' terday
An' ain't God good.' While all
th' time

Y' watch the bobber on yer line
An fish!

Oh lots of thin's 'at fillers do
Is fine—but say, twist me an' you
Th' whole caboodle bunched in one
Ain't go one half the sure pop fun
'At I kin get from beatin' it
Away from all o' this ter sit
An fish!

Author unknown.

ALBERTA CABINET

The cabinet is now made up as follows:

Hon. E. C. Manning, premier, provincial treasurer.

Hon. Dr. W. W. Cross, health and public welfare.

Hon. C. E. Gerhardt, municipal affairs, provincial secretary.

Hon. A. J. Hooke, economic affairs.

Hon. Lucien Maynard, attorney general.

Hon. D. B. MacMillan, public works, railways, telephones.

Hon. N. E. Tanner, lands and mines.

Hon. Ivan Casey, education.

Hon. Dr. J. L. Robinson, industry and labor.

Hon. David Ure, agriculture.

"We have the technical skill and know-how and the world requires our mineral products in increasing amounts." —Dr. Charles Cam-sell.

Director, Line Elevators Farm Service.

Wainwright, Alberta.

Appointment of H. J. Modier

On behalf of the Line Elevator Companies sponsoring this Department, we take pleasure in announcing the appointment of Mr. F. J. Mather, B.Sc., as Assistant to Director, Line Elevators Farm Service. Mr. Mather succeeds Mr. E. Robertson who recently accepted the position of District Seed Analyst, Plant Products Division, Dominion Department of Agriculture at Winnipeg. It is most gratifying to us that Mr. Robertson, the officer in charge of our own seed testing laboratory, should be selected for a post of such importance and responsibility in the Canadian seed testing field.

Mr. Mather is no stranger to Western Canadian agriculture. He was raised on a farm and educated in Alberta. Specializing in soil science, he obtained the degree of Bachelor of Science in Agriculture from the University of Alberta in 1933. After his graduation Mr. Mather was engaged in soil survey work in Alberta, and in 1939 and 1942 occupied the position of Supervisor of Illustration Stations, Dominion Experimental Stations, Lethbridge and Lacombe, Alberta. In 1942, Mr. Mather accepted the position of Supervisor of Soil Conservation and Weed Control with the Provincial Department of Agriculture, Edmonton; a position he filled with distinction until his recent appointment.

As technical advisor to the newly established Chemical Division, Line Elevators Farm Service, Mr. Mather will be in a position to assist prairie farmers with their chemical weed control problems. In this work he will be assisted by some 2,500 Line Elevator country-grain buyers throughout Western Canada. Mr. Mather's sound training, wide experience and recognized ability in dealing with two of Western Canada's most important and pressing agricultural problems—Soil Conservation and Weed Control—qualify him well for his new position.
